ST. MARTIN'S LANE.

CONTENTS.

SERIES B. VOL. LXXXVIII.

No. B 600.—August 6, 1914.

	PAGE
The Influence of Osmotic Pressure upon the Regeneration of <i>Gunda ulvæ</i> . By Dorothy Jordan Lloyd, B.Sc., Bathurst Student, Newnham College, Cambridge. Communicated by Prof. J. Stanley Gardiner, F.R.S.	1
<i>Glossina brevipalpis</i> as a Carrier of Trypanosome Disease in Nyasaland. By Surgeon-General Sir David Bruce, C.B., F.R.S., A.M.S.; Major A. E. Hamerton, D.S.O., and Captain D. P. Watson, R.A.M.C.; and Lady Bruce, R.R.C. (Scientific Commission of the Royal Society, Nyasaland, 1912-14.) (Plate 1)	20
Trypanosome Diseases of Domestic Animals in Nyasaland. III.— <i>Trypanosoma pecorum</i> . Development in <i>Glossina morsitans</i> . By Surgeon-General Sir David Bruce, C.B., F.R.S., A.M.S.; Major A. E. Hamerton, D.S.O., and Captain D. P. Watson, R.A.M.C.; and Lady Bruce, R.R.C. (Scientific Commission of the Royal Society, Nyasaland, 1912-14.) (Plate 2)	33
Trypanosomes found in Wild <i>Glossina morsitans</i> and Wild Game in the "Fly-Belt" of the Upper Shiré Valley. By Surgeon-General Sir David Bruce, C.B., F.R.S., A.M.S.; Major A. E. Hamerton, D.S.O., and Captain D. P. Watson, R.A.M.C.; and Lady Bruce, R.R.C. (Scientific Commission of the Royal Society, Nyasaland, 1912-14.).....	38
The Food of <i>Glossina morsitans</i> . By Surgeon-General Sir David Bruce, C.B., F.R.S., A.M.S.; Major A. E. Hamerton, D.S.O., and Captain D. P. Watson, R.A.M.C.; and Lady Bruce, R.R.C. (Scientific Commission of the Royal Society, Nyasaland, 1912-14)	41
Infectivity of <i>Glossina morsitans</i> in Nyasaland during 1912 and 1913. By Surgeon-General Sir David Bruce, C.B., F.R.S., A.M.S.; Major A. E. Hamerton, D.S.O., and Captain D. P. Watson, R.A.M.C.; and Lady Bruce, R.R.C. (Scientific Commission of the Royal Society, Nyasaland, 1912-14.).....	43
The Various Inclinations of the Electrical Axis of the Human Heart. Part IA.—The Normal Heart: Effects of Respiration. By Augustus D. Waller, M.D., F.R.S. (Plates 3-6)	49
On the Relation between the Thymus and the Generative Organs and the Influence of these Organs upon Growth. By E. T. Halnan and F. H. A. Marshall. (With a Note by G. Udney Yule.) Communicated by Prof. J. N. Langley, F.R.S.	68

	PAGE
The Cultivation of Human Tumour Tissue <i>in Vitro</i> .—Preliminary Note. By David Thomson, M.B., Ch.B. (Edin.), D.P.H. (Cantab.), Grocers' Research Scholar, and John Gordon Thomson, M.A., M.B., Ch.B. (Edin.), Beit Memorial Research Fellow. Communicated by Sir Ronald Ross, K.C.B., F.R.S. (Plate 7)	90
No. B 601.—August 27, 1914.	
Trypanosome Diseases of Domestic Animals in Nyasaland. <i>Trypanosoma caprac</i> (Kleine). Part III.—Development in <i>Glossina morsitans</i> . By Surgeon-General Sir David Bruce, C.B., F.R.S., A.M.S.; Major A. E. Hamerton, D.S.O., and Captain D. P. Watson, R.A.M.C.; and Lady Bruce, R.R.C. (Scientific Commission of the Royal Society, Nyasaland, 1912-14.) (Plate 8)	92
The Trypanosome causing Disease in Man in Nyasaland: The Liwonde Strain. Part I.—Morphology. Part II.—Susceptibility of Animals. By Surgeon-General Sir David Bruce, C.B., F.R.S., A.M.S.; Major A. E. Hamerton, D.S.O., and Captain D. P. Watson, R.A.M.C.; and Lady Bruce, R.R.C. (Scientific Commission of the Royal Society, Nyasaland, 1912-14)	97
The Trypanosome causing Disease in Man in Nyasaland. The Naturally Infected Dog Strain. Part I.—Morphology. By Surgeon-General Sir David Bruce, C.B., F.R.S., A.M.S.; Major A. E. Hamerton, D.S.O., and Captain D. P. Watson, R.A.M.C.; and Lady Bruce, R.R.C. (Scientific Commission of the Royal Society, Nyasaland, 1912-14.) (Plates 9-11)	111
The Trypanosome causing Disease in Man in Nyasaland. The Naturally Infected Dog Strain. Part II.—Susceptibility of Animals. By Surgeon-General Sir David Bruce, C.B., F.R.S., A.M.S.; Major A. E. Hamerton, D.S.O., and Captain D. P. Watson, R.A.M.C.; and Lady Bruce, R.R.C. (Scientific Commission of the Royal Society, Nyasaland, 1912-14).....	130
The Vapour-Pressure Hypothesis of Contraction of Striated Muscle. By H. E. Roaf. Communicated by Prof. C. S. Sherrington, F.R.S.	139
On the Nutritive Conditions Determining the Growth of certain Fresh-water and Soil Protista. By H. G. Thornton (New College) and Geoffrey Smith, Fellow of New College, Oxford. Communicated by Prof. G. C. Bourne, F.R.S. (Plate 12)	151
The Validity of the Microchemical Test for the Oxygen Place in Tissues. By Alan N. Drury, B.A., Shuttleworth Student of Gonville and Caius College. Communicated, with a Note, by W. B. Hardy, F.R.S.	166
Studies on Enzyme Action. XXII.—Lipase (IV).—The Correlation of Synthetic and Hydrolytic Activity. By Henry E. Armstrong, F.R.S., and H. W. Gosney, B.Sc.	176

No. B 602.—September 15, 1914.

Morphology of Various Strains of the Trypanosome causing Disease in Man in Nyasaland: The Human Strain (continued).—VI to X. By Surgeon-General Sir David Bruce, C.B., F.R.S., A.M.S.; Major A. E. Hamerton, D.S.O., and Captain D. P. Watson, R.A.M.C.; and Lady Bruce, R.R.C. (Scientific Commission of the Royal Society, Nyasaland, 1912-14)	190
--	-----

	PAGE
The Trypanosome causing Disease in Man in Nyasaland. II. The Wild-game Strain. III. The Wild <i>Glossina morsitans</i> Strain. Part II.—Susceptibility of Animals. By Surgeon-General Sir David Bruce, C.B., F.R.S., A.M.S.; Major A. E. Hamerton, D.S.O., and Captain D. P. Watson, R.A.M.C.; and Lady Bruce, R.R.C. (Scientific Commission of the Royal Society, Nyasaland, 1912–14)	205
The Trypanosome causing Disease in Man in Nyasaland. The Naturally Infected Dog Strain. Part III.—Development in <i>Glossina morsitans</i> . By Surgeon-General Sir David Bruce, C.B., F.R.S., A.M.S.; Major A. E. Hamerton, D.S.O., and Captain D. P. Watson, R.A.M.C.; and Lady Bruce, R.R.C. (Scientific Commission of the Royal Society, Nyasaland, 1912–14).....	213
The Trypanosome causing Disease in Man in Nyasaland. The Naturally Infected Dog Strain. Part IV.—Experiments on Immunity. By Surgeon-General Sir David Bruce, C.B., F.R.S., A.M.S.; Major A. E. Hamerton, D.S.O., and D. P. Watson, R.A.M.C.; and Lady Bruce, R.R.C. (Scientific Commission of the Royal Society, Nyasaland, 1912–14)	219
The Colouring Matters in the Compound Ascidian <i>Diazona violacea</i> , Savigny. By Alfred Holt, M.A., D.Sc. Communicated by Prof. W. A. Herdman, F.R.S. ...	227
Some Accessory Factors in Plant Growth and Nutrition. By W. B. Bottomley, M.A., Professor of Botany, University of London, King's College. Communicated by Prof. F. W. Oliver, F.R.S.	237
Further Observations on the Changes in the Breathing and the Blood at Various High Altitudes. By Mabel Purefoy FitzGerald. Communicated by J. S. Haldane, F.R.S.	248
Constancy of the Optimum Temperature of an Enzyme under Varying Concentrations of Substrate and of Enzyme. By Arthur Compton, Imperial Cancer Research Fund. Communicated by Sir J. R. Bradford, K.C.M.G., Sec. R.S. ...	258
A Theory of the Action of Rays on Growing Cells. By J. Joly, Sc.D., F.R.S.	262
The Influence of Timbre and Loudness on the Localisation of Sounds. By Charles S. Myers. Communicated by Prof. C. S. Sherrington, F.R.S.	267

No. B 603.—December 1, 1914.

A Comparative Study of Oxidation by Catalysts of Organic and Inorganic Origin. By Alfred J. Ewart, D.Sc., Ph.D., Professor of Botany and Plant Physiology in the Melbourne University and Government Botanist of Victoria. Communicated by Prof. J. Reynolds Green, F.R.S.....	284
The Fixation of Arsenic by the Brain after Intravenous Injections of Salvarsan. By James McIntosh, Beit Memorial Research Fellow, and Paul Fildes, Assistant Bacteriologist to the London Hospital. Communicated by Prof. W. Bulloch, F.R.S.....	320
The Production of Anthocyanins and Anthocyanidins.—Part II. By Arthur Ernest Everest, M.Sc., Ph.D. (Lecturer in Chemistry, University College, Reading). Communicated by Prof. Frederick Keeble, F.R.S.	326
CROONIAN LECTURE: The Bearing of Cytological Research on Heredity. By Edmund B. Wilson, Da Costa Professor of Zoology, Columbia University, New York	333

No. B 604.—February 1, 1915.

	PAGE
Observations on the Life-Cycle of a New Flagellate, <i>Helkesimastix fecicola</i> , n.g., n.sp.: Together with Remarks on the Question of Syngamy in the Trypanosomes. By H. M. Woodcock, D.Sc., Assistant to the Professor of Protozoology, University of London, and G. Lapage, M.Sc., Assistant Lecturer and Demonstrator in Zoology, Victoria University, Manchester. Communicated by Prof. S. J. Hickson, F.R.S. (Plates 13 and 14)	353
The Antagonistic Action of Carbon Dioxide and Adrenalin on the Heart. By S. W. Patterson, M.D., Beit Memorial Research Fellow. Communicated by Prof. Starling, F.R.S.	371

No. B 605.—March 1, 1915.

The Influence of Salt-Concentration on Hæmolysis. By W. W. C. Topley, M.B., M.R.C.P., Bacteriologist to Charing Cross Hospital. Communicated by Dr. F. W. Mott, F.R.S.	396
The Influence of the Hydrogen Concentration upon the Optimum Temperature of a Ferment. By Arthur Compton, M.B., D.Sc. (N.U.I.), Imperial Cancer Research Fund. Communicated by Prof. W. Bulloch, F.R.S.	408
The Life-Cycle of Cladocera, with Remarks on the Physiology of Growth and Reproduction in Crustacea. By Geoffrey Smith, M.A., Fellow of New College, Oxford. Communicated by E. S. Goodrich, F.R.S.	418
<i>Lepidostrobos kentuckiensis</i> , nomen nov., formerly <i>Lepidostrobos Fischeri</i> , Scott and Jeffrey: a Correction. By D. H. Scott, For. Sec. R.S.	435

No. B 606.—April 1, 1915.

Investigations on Protozoa in Relation to the Factor Limiting Bacterial Activity in Soil. By T. Goodey, M.Sc., Protozoologist, Research Laboratory in Agricultural Zoology, University of Birmingham. Communicated by Prof. F. W. Gamble, F.R.S.	437
On the Mesodermic Origin and the Fate of the So-called Mesectoderm in Petromyzon. By S. Hatta (Sapporo, Japan). Communicated by Prof. E. W. MacBride, F.R.S.	457
On the Variation in the Growth of Mammalian Tissue <i>in Vitro</i> according to the Age of the Animal. By Albert J. Walton, M.S., F.R.C.S., M.B., L.R.C.P., B.Sc. Communicated by Prof. W. Bulloch, F.R.S. (Plate 15)	476

No. B 607.—May 3, 1915.

The Influence of Homodromous and Heterodromous Electric Currents on Transmission of Excitation in Plant and Animal. By Prof. J. C. Bose, M.A., D.Sc., C.S.I., C.I.E., Presidency College, Calcutta. Communicated by Prof. S. H. Vines, F.R.S.	483
The Measurement of Arterial Pressure in Man. I.—The Auditory Method. By Martin Flack, Leonard Hill, F.R.S., and James McQueen.....	508
The Measurement of Arterial Pressure in Man. II.—A Schematic Investigation. By Martin Flack, Leonard Hill, F.R.S., and James McQueen	516

	PAGE
On the Mechanism of the Cardiac Valves: a Preliminary Communication. By A. F. Stanley Kent, M.A. Oxon., Henry Overton Wills Professor of Physiology in the University of Bristol. Communicated by Prof. C. S. Sherrington, F.R.S. (Plate 16).....	537
The Effect of Functional Activity upon the Metabolism, Blood-flow, and Exudation in Organs. By J. Barcroft, F.R.S., and Toyojiro Kato.....	541
Functional Œdema in Frog's Muscle. By M. Back, K. M. Cogan, and A. E. Towers. Communicated by J. Barcroft, F.R.S.	544

No. B 608.—June 1, 1915.

The Effect of the Depth of Pulmonary Ventilation on the Oxygen in the Venous Blood of Man. By J. F. Twort and Leonard Hill, F.R.S.	548
On the Occurrence of an Intracranial Ganglion upon the Oculomotor Nerve in <i>Scyllium canicula</i> , with a Suggestion as to its Bearing upon the Question of the Segmental Value of Certain of the Cranial Nerves. By Geo. E. Nicholls, D.Sc., Beit Memorial Fellow (Zoological Department, King's College, London). Com- municated by Prof. A. Dendy, F.R.S.	553
The Osmotic Balance of Skeletal Muscle. By Dorothy Jordan Lloyd. Communi- cated by W. B. Hardy, F.R.S.....	568
Surface Tension and Ferment Action. By E. Beard and W. Cramer. Communi- cated by Sir Edward Schäfer, F.R.S.	575
Surface Tension as a Factor Controlling Cell Metabolism. By W. Cramer. Com- municated by Sir Edward Schäfer, F.R.S.	584

OBITUARY NOTICES OF FELLOWS DECEASED.
